

DROPPED

15 June 47

SC Munich

CAPELLA

Subject was arrested by SCI Munich in the summer of 1945 and was released due to British acknowledgement that he was their agent. Later, however, he denied contact with any intelligence agency. He was then used by us in an operation aimed at locating valuables purchased for the RSHA during the war.

He worked for the "Bayrische Hilfswerk" and was a buyer for Special Services/USYA. Source CAMERA served as a cut-out in contacting him for use as a casual informant -- he had papers allowing him freedom of movement throughout Germany and Austria, was familiar with "people previously active in intelligence work in those countries". He also had connections with Hungarian Government circles (1946). He submitted several reports through CAMERA and directly to SC Munich after the latter emigrated to Brazil. Source, however, has been dropped because of his black market activities.
